PERSONAL STATEMENT

A committed and creative Computer Science Graduate with a 2:1 honours degree from the University of Westminster, looking to secure a position to develop my current skills, knowledge and experience in the IT industry. I am a Self-driven individual that is widening my skill set by learning and expanding on other programming languages such as PHP, MySQL and Java. Working under pressure is when I do my best work and constantly keeping up to date with the industry, allows me to work on every project in the most up to date way.

CORE SKILLS

Computing skills

- Knowledge of HTML5, CSS and JavaScript
- Strong knowledge in email marketing and template design
- Familiar with jQuery, Bootstrap, PHP, MySQL and Java
- Knowledge of Google Analytics
- Extensive skills in Adobe Dreamweaver
- Basic knowledge of various open source content management systems such as WordPress, GoDaddy and Shopify
- Basic knowledge in Adobe Photoshop

Personal Skills

- Able to lead, work well in a team and individually
- Bilingual (Arabic written and verbal)
- Creatively driven and logically minded
- Dedicated, motivated and resilient
- Ambitious, tenacious and loyal
- Extreme desire to expand, learn and grow within the industry

EMPLOYMENT HISTORY

Application support consultant

November 2017 –
Present

CampaignMaster

- Providing excellent technical support to clients both over the phone and face-to-face.
- Designing and amending business artwork.
- Designing and amending business HTML templates for clients.
- Maintaining and improving on HTML templates.
- Maintaining good knowledge of Third Party tools such as Photoshop, Illustrator and Dreamweaver.

- Assisting in sales, seeking opportunities, advising clients and encouraging sales consulting.
- Assisting in software development.
- Planning and scheduling tasks and client projects accordance with client requirements.

Entry level Web Developer

June 2015 –
September 2016

All cheap accessories “eBay Company”

- Editing and improving the company’s website UI. I was working with the team through GoDaddy to design and improve the company’s website user interface and marketing performance. (Link to the company’s website “printingsandbanners.com”).
- Using HTML and CSS scripting for the eBay shop. I designed the company’s eBay shop by editing the products’ user interface to make it stand out and look professional. This led to the increase of customer views on our eBay shop by 15%.
- Gathered clients’ requirements and negotiating sales which led to me working outside hours to keep clients happy and stay on track.

Sales assistant

April 2013 –
December 2014

Beauty base

- Working on checkouts
- Customer service. I always made sure customers were happy with the service. Always provided them with an alternative whenever their requested products weren’t available. Increased the store sales by 5% during first 6 weeks line of work.
- Handling company deliveries.
- Promoting and advertising new store products.

EDUCATION

University of Westminster

September 2014 –
June 2017

London

- Computer Science BSc (Hons) – 2:1

Achieved a first-class grade in the biggest individual project during my course. My task was to plan and implement a project throughout my third academic year. I managed to develop a responsive web app for fitness and bodybuilding which required to use a variety of programming languages. (Web app link: firashazim.site/FinalyearProject.html)

William Morris Sixth Form

September 2012 –
July 2014

London

- A–Levels: Arabic, Art
- BTEC Level 3: Information Technology

PERSONAL INTERESTS

- Bodybuilding and Fitness. This is my biggest hobby as I enjoy looking after my self-health and body shape.
- Web Development. I always like to research and expand my knowledge in different programming languages.
- Football (Team member of the university football team).
- Breakdancing. Breakdancing has been one of my favorite hobbies since childhood. I always loved the dancing techniques and the empowering feeling that it gives me.
- Gaming. I enjoy playing computer games as it is always an exciting hobby to do and keeps me connected with my friends.
